

As always, the wellbeing of our team and community is our top priority. We will continue to offer our “HoDo to Go” service. Pick up some HoDo comfort food without compromising your safety. Call 478-6969 to place your order for curbside pickup. [View the menu.](#)

Our hotel is still open, and we’re following the most up to date cleaning + disinfecting guidelines and recommendations. If you feel you need to cancel your upcoming reservation, there will be no cancellation fee.

Questions? We want to help! Please don’t hesitate to call us - (701) 478-1000.

Additionally, here is some information for you, and the steps we’re taking to keep our community healthy and safe:

### **Our Commitment to Health & Safety:**

We’ve got high standards! (We promise.) And although the COVID-19 recommendations are changing rapidly, we are keeping ourselves in the loop on the latest guidance when it comes to cleaning + disinfecting, and maintaining our high standards:

- **Hand-washing:** Proper and frequent handwashing is incredibly important now and always! Our hotel and restaurant team are all aware of how important this is and take proper handwashing to heart to ensure our guests stay safe & healthy.
- **Education:** We’re educating our hotel and housekeeping team in accordance with the latest cleaning and distancing protocols. In the restaurant, our staff is being trained to do the same! Keeping all of our staff educated, and each space squeaky clean is a top priority.
- **Staying in the loop:** We are monitoring the CDC and local public health recommendations throughout each day to ensure we’re staying up to date and doing our part to keep our community safe & healthy.

**Keeping it Clean:** We always use top-notch cleaning products and protocols to keep our hotel, eating areas, and food prep areas in tip-top shape:

- **Guest Rooms:** Rigorous cleaning + disinfecting checklists are in place to clean rooms after guests depart and before our next guest arrives, with special attention given to high-touch areas.
- **Traffic Spaces:** We're increasing the frequency of cleaning + disinfecting our "traffic" spaces; i.e. elevator & buttons, entrance/exit door handles, and our communal spaces in the hotel.
- **Back of House:** The spaces where our HoDo team is working "behind the scenes" and preparing to-go orders are being held to the same standards as above. It's utterly important to keep all spaces and staff clean + disinfected.
